How Illegal Aliens Seized A City

Bell Gardens, Calif. was a peaceful city of 42,000 which had been named "*The Hub of Progress*" for its modernization and financial success. Last year the city council approved a zoning plan to control population density to prevent the construction of cheap housing which would depress the value of the more substantial homes. Suddenly, organizers from the "*League of United Latin-American Citizens*," (L.U.L.A.C.) began to agitate the local Mexican community (which is made up of mostly green-card aliens and illegal aliens.) They formed the "No-Rezoning Committee" and incited local aliens by accusing the city council of being "racists" who were seeking to drive them out of town. What followed was anarchy and terrorism.

Mayor Allen Shelby had to hire bodyguards.

Up to 400 Mexicans stormed city council meetings where they screamed and cursed the town's elected officials. They held anti-White banners and interrupting council business with shouts of - "No Rezoning." They demanded the recall of the mayor and White city council members. Interestingly, Rosa Hernandez, the only Mexican on the city council, was not a target of the recall despite the fact that she also voted for the zoning ordinance! It was a anarchy

Americans are losing good paying jobs by the thousands. Pres. Bush argues that when these products, made with cheap slave labor, come back into America "service" jobs will be created here. Where are they? Such jobs usually pay the minimum wage. How are our children going to be able to get married, have children, buy a home, enjoy the American dream - on \$4.25 an hour?

Bush says our standard of living will go up - but in fact it goes down each year. Once these plants leave they will never return. Jobs are lost which otherwise should be available for future generations of Americans yet to be born. We must defeat the Free Trade bill in January. Bell Gardens City Clerk, Leanna Keltner, inspected this list of "absentee voters." She quickly found that 59 of them gave as their residence commercial addresses or vacant lots. One of the loudest leaders of the recall organization was Mrs. Maria Chacon. She admitted in an interview with the *Los Angeles Times* that she is neither a resident of Bell Gardens nor a U.S. citizen! Still she registered to vote. Mexico is in debt to the tune of many billions to U.S. banks. By allowing our companies to open hundreds of factories in Mexico and pay Mexicans less than \$1 an hour that country stands to earn multi-millions in taxes. This, in part, will be used to pay off the loans to the big banks. Perhaps this is the real reason why hundreds-of-thousands of U.S. workers are being required to give up their jobs. After all, the banks - somehow or other - must be paid - be it the last pound of our flesh!

Voter Fraud Used To Take Over California City

(Continued from page 1.)

Mrs. Keltner sent all this information to the state elections commission, the county district attorney and the U.S. Civil Rights Commission. Not one of them initiated any type of investigation! Imagine if Whites had broken such laws?

A small number of responsible Mexicans objected to the violent activities of the radical mercenaries. Maria Alvarez, a member of the City Planning Commission said: *"I am just as Hispanic as they are, but I am not going to act like that. We should respect the country we live in."* Father Henry Gomez, pastor of St. Gertrude Catholic Church said: *"They are yelling so loud, they can't hear what the other side has to say. Justice should be addressed but I think it can be done logically and reasonably."* However their words carried no weight as the radicals took over Bell Gardens.

Since you have announced your intention to have the Justice Department monitor the December 10, 1991 City recall election the City Attorney and I felt it would be beneficial to share the following information with you.

It is our intention to have a fair election conducted, and ask for your cooperation in achieving this goal. In this connection, I have received complaints of possible voter fraud and will be called upon to consider election day challenges to several voters. I hope this prior notice will allay any concern on the part of the poll watchers when I am called upon to deal with various voter challenges, including:

San Francisco is once again leading the way in testing unchartered waters. They have four referral agencies which now obtain foster care for underage children who are illegal aliens. This costs the taxpayer up to \$3,000 per month per child. Growing numbers of "unaccompanied" children are entering America. Evelyn Poates, a social worker says: "The fact is that they are here. If we don't help them they'll start selling crack, breaking into cars, etc."

Governor Blames Immigrants For Crisis

Illegal Aliens Bankrupt

California

California is bankrupt because of immigration as the simple figures clearly show Calif. has more aliens than any other state. Hispanics made up nearly half of the 5,633 people arrested in the L.A. riots. Some 1,048 were illegal aliens and have been deported.

Gov. Pete Wilson says that 600,000 new residents move into the state each year and most are from South America. This does not count the illegal aliens. The state's population is now 31 million and it will surpass 50 million by the year 2016 (a conservative estimate.)

The state budget deficit is \$14 billion. Unemployment is 8.5%, the highest in the nation and rising. Recipients of aid to Families with Dependent Children are double that of any other state. Amnesty granted citizenship to 1.3 million aliens in Calif. and a majority are on state Medi-Cal (free medical care.)

Illegal aliens are in large measure responsible for the crime crisis in the state. In Los Angeles 25% of burglars, 29% of auto thieves, and 95% of those arrested for drugs are illegal aliens.

Fighting The Deficit

Gov. Pete Wilson says immigrant costs are bankrupting California.

The San Diego Union reports that by the end of this decade (just 8 years off) the state will grow by 6.3 million more people and 44% will be immigrants. The Union stated: *"This influx will significantly inflate the state's health, education and welfare bills."*

Last year alone Medi-Cal spent \$395 million to provide emergency and pregnancy care to illegal aliens. By next year, 1993 - *"the children born to illegal alien parents will make up 25% of the welfare caseload."*

The Governor also noted that illegal aliens make up 10% of the state prison population. The annual cost per inmate is \$20,000. In San Diego they make up over 50% of the jail inmates.

Americans Lied To On "Free Trade"

More Free Trade Lies

Pres. Bush argues that Free Trade with Mexico will open up their markets to U.S. products. The truth is that Mexico's economy is only 3% the size of America's. Thus there is little they can purchase. Not only that but their workers national pay average is only 50 cents an hour. How can a people paid starvation wages buy appliances, cars, etc. from the U.S.? This is nothing but a smoke screen for the real goal of enriching a small number of corporate heads and the big banks!

California's powerful Jewish Rep. Henry Waxman recently wrote a constituent that: *"On the average, legal immigrants contribute more through taxes than they consume in government services."*

Some 1,048 were illegal aliens and have been deported.

Gov. Pete Wilson says that 600,000 new residents move into the state each year and most are from South America. This does not count the illegal aliens. The state's population is now 31 million and it will surpass 50 million by the year 2016 (a conservative estimate.)

The state budget deficit is \$14 billion. Unemployment is 8.5%, the highest in the nation and rising. Recipients of aid to Families with Dependent Children are double that of any other state. Amnesty granted citizenship to 1.3 million aliens in Calif. and a majority are on state Medi-Cal (free medical care.)

Illegal aliens are in large measure responsible for the crime crisis in the state. In Los Angeles 25% of burglars, 29% of auto thieves, and 95% of those arrested for drugs are illegal aliens.

Fighting The Deficit

Gov. Wilson has placed an amendment on the Nov. ballot which would cut welfare benefits to the 2.4 million recipients by 25% if there is a non-working able bodied adult in the household. This would save the state an estimated \$600 million a year. For this the Governor has been called a "racist."

Gov. Wilson replied: "Such rhetoric is demagoguery. As a practical matter, there is a limit to the number of immigrants a nation can absorb. I'll be accused of being elitist or a

Gov. Pete Wilson says immigrant costs are bankrupting California.

The San Diego Union reports that by the end of this decade (just 8 years off) the state will grow by 6.3 million more people and 44% will be immigrants. The Union stated: "*This influx will significantly inflate the state's health, education and welfare bills.*"

Last year alone Medi-Cal. spent \$395 million to provide emergency and pregnancy care to illegal aliens. By next year, 1993 - "*the children born to illegal alien parents will make up 25% of the welfare caseload.*"

The Governor also noted that illegal aliens make up 10% of the state prison population. The annual cost per inmate is \$20,000. In San Diego they make up over 50% of the jail inmates.

Black Attacks Against Whites Motivated By Hatred For Whites

Facts And Figures On Negro Crime In America

Pat Buchanan on May 7th put the "Big Lie" to the media propaganda accusing White people of committing "hate crimes" against black people. The truth is the exact opposite! Buchanan presented the following statistics:

- 1) Blacks commit 8 times more assaults than do Whites
- 2) Blacks commit 9 times more rapes than Whites.
- 3) Blacks commit 14 times more murders.
- 4) Blacks commit 19 times more armed robberies.
- 5) Black neighborhoods are 35 times more violent than White communities.
- 6) There were 629,000 interracial attacks committed in 1985. Some 9 out of every 10 attacks were committed by blacks against Whites.

Blacks make up 12% of the population (thus black males are 6%.) Still blacks make up 46% of the nation's prison population. (Note: Blacks are only 3.5% of the college enrollment.) Nearly one-fourth of all Negroes ages 20 to 29 are either in prison, on probation or on parole. (609,690 blacks are in prison or on parole.) This compares to 10% for Hispanics and 6% for Whites.

Thus, if it were not for the rapidly growing Negro crime population America would be a relatively safe nation in which to live. How much longer can our politicians ignore the racial aspects of violent crime in America? We must awaken while there is still time to correct this crisis!

A) Of the 629,000 interracial attacks committed during 1985 some 9 out of 10 were by blacks against Whites. On the other hand White criminals prey on blacks only 2% of the time. While

A metro-Atlanta SAT scoring comparison found that in the mostly black Atlanta schools they had an average SAT score of 393 in math and 350 in reading. In the White Rockdale schools the average score was 478 in math and 427 in reading.

Dr. Arthur Jensen of the University of Calif. at Berkeley says:

over 50% of all rapes committed by blacks are against White women it is almost unheard of for a White to rape a black woman. The statistics on Whites raping black women are so minute they cannot be accurately figured. It is something like 1/1,000 of 1 per cent!

"Based on I.Q. tests Whites may be naturally smarter than blacks. During two generations of I.Q. testing blacks have consistently scored 15 points lower than Whites. Even American Indians, who are in the most socially deprived and ignored group, still score on the average 7 points higher than blacks."

Dr. Jensen also has further proven the power of genetics through the testing of identical twins. In cases where they had been separated and raised in totally different social and economic atmospheres, he found that in most cases - twins with identical genes had the exact same I.Q. scores!

There are a lot of White heroes out there like Joseph See. They are the men of courage who are eventually going to take back control of America for the White people!

Murder Due To Anti-White Hate

Had Everything To Give

Yale sophomore, Christian Prince, 19, came from a socially prominent Chevy Chase, Md. family. His father is a prominent Washington lawyer and a tennis partner of President Bush. One night he was walking across campus to his fraternity house when he was stopped by Negro James Fleming and two friends.

They asked for his money and he handed them his wallet. One of the accomplices told police: "Fleming said - 'I ought to kill this cracker'" He then put the gun to Christian's heart and pulled the trigger.

At his murder trial Fleming was only found guilty of "conspiring to rob." The jury found him innocent of First Degree Murder and it was a "hung jury" on felony murder and robbery. Both blacks and White liberals sat on the jury. Fleming will be retried on the latter two charges. The parents of young Christian Prince told the media they

year old boy, his father, a 20-year-old youth and his mother and a girl age 19. She was raped by Pierre while in the agony of dying from the drano. Andrews stuck a ball point pen into the young boy's ear and kicked it into his brain. Pierre then shot all five in the head. With emergency medical help the boy and his father survived. However, he suffered permanent brain damage. The other three died.

Pierre was executed in 1977. Civil Rights groups appealed Andrews' death sentence for 18 years. Their argument was that Pierre shot the five. The state maintained that they would have died from Andrews forcing them to drink drano even if they were not shot.

NAACP head Stephen Hawkins said: *"This entire case is infected with raw racism. The jury was all-White and Andrews didn't know that drano could kill at the young age of only 19."* The NAACP held protest marches in Andrews defense. They appealed the case 18 times but the prosecution stressed that the five had begged for their lives before being tortured and shot.

Finally - at long last - on July 30th William Andrews was put to death by lethal injection and JUSTICE was served!

Eleanor Roosevelt Advocated Integration

Roosevelt's Granddaughter Attacked By Negro

President Roosevelt was the first to begin racial integration in America in the military. His wife, Eleanor, was the first to argue in favor of legalizing interracial marriage (which was banned in a majority of the states until the 1950s.) Their grandson, Elliot, today is the millionaire head of an oil and gas company in Dallas, Texas. With his wife JoAnne they have four children, three in college and one still in high school.

The Martin Luther King I Have A Dream Foundation has White liberals sponsoring "under-privileged" Negro youths. They befriend and socialize with them. JoAnne Roosevelt became a volunteer and agreed to help four blacks. She took a particular liking to Willie Adams, age 16. She taught him to swim, play croquet and bought him expensive tennis shoes. JoAnne had the four over to dinner, let them use the swimming pool and drove them to museums to expose them to cultural surroundings.

I Have A Dream is headed by a White liberal named Eugene Lang. They did not inform JoAnne Roosevelt that Willie Adams had a dangerous criminal background. He had been expelled from middle school for stealing \$204. He was also on probation for burglary of a private home. Then, on Friday, March 2, 1991 she arrived home at 5:20 pm. Willie and one of his friends were waiting for her. They asked her to drive them home. She thought this was strange as there were no plans for them to even be at her home on this date. She made a terrible mistake and agreed.

As soon as they reached the black area of West Dallas Willie pulled out a knife and began to stab JoAnne Roosevelt all over her body. He stabbed her a millimeter away from a major artery in the arm from which she could quickly bleed to death. Another stab penetrated her spinal column and almost severed the spinal cord which would have left her paralyzed for life. A stab in the face just missed an optic nerve which could have blinded her. Somehow she managed to unlatch her seat belt and climb out of the car. Willie jumped out after her and continued to stab the staggering woman. Then a crowd gathered and the two ran off. Mrs. Roosevelt later recalled:

Eleanor Roosevelt was the first prominent woman in America to promote socializing between the races. It really killed her granddaughter-in-law!

Mrs. Roosevelt hailed the book as an important advancement in promoting race relations!

In July 1943, Mrs. Roosevelt wrote an article for young people in a student magazine entitled, "The New Threshold." It stated: "A great many people believe there should be no intermingling of the races. Nevertheless, down through the ages, it has been proven over and over again that this is one of the questions people settle for themselves and no amount of legislation will keep them from doing so. This is a question, therefore, that I think we have to leave to individuals, not only all over the U.S., but all over the world."

Race-Mixing Is Fatal

Befriending Negro Couple - Leads To Murder

Phoenix, Arizona has a case which totally upholds our warnings about the dangers for Whites who socialize with Negroes. Don and Barbara Barringer became friends with a black couple, Don and Robin Prunty. They invited them into their home for parties and went bicycle riding together.

Don Barringer mourns the death of his wife and unborn baby.

Then Don Prunty, age 25 and Robin, 31, began having marital problems. Mrs. Barringer, 34, invited Robin to move in with them until things "settled down." In the meantime Don Barringer had to go to Okinawa where he had a contract to lay flooring for the Navy. He warned his wife to move Mrs. Prunty out because he feared trouble. They had a baby girl and were expecting another. On April 19 she phoned him to give him the

Recalling The Fallacies Of Eleanor Roosevelt

The lesson yet to be learned from JoAnne's story is the danger of socializing with Negroes. Most police officers will tell you that Negroes commit spur-of-the-moment crimes of "opportunity." They suddenly think that there is no one around - there are no witnesses - they can steal, burglarize, murder - because they feel there are no witnesses. An example: A White lady let her black neighbor in the next apartment use her phone. Next she demanded to be allowed to receive calls from men friends late at night. When the White mother of one daughter objected, she violently turned on her and the police had to be called to control the black woman.

Turn Off That Brainwashing Television!

American People

Americans have no idea on how much time they spend watching TV. The average person spends six hours a day in front of the TV set. Think about this! It is almost as much time as you spend working or sleeping and more time than you spend alone with your wife or children.

Studies show that children below school age watch eight hours each day while those in school watch a little less. By the time a child reaches age 20 he has viewed an accumulated 14 months of his life (24 hours a day) sitting in front of the TV tube! Experts say this is responsible for the decline in reading and comprehension levels in all age groups of children tested. Students read less and understand what they read less than they did 10 years ago. In general Americans are unable to write more than a few simple sentences. We are among the least literate people in the developed world and the problem is getting worse.

They Want To Destroy Our Monuments - Banish Our Flag - Rename Streets - Rewrite Our History

Would Wipe Out White Heritage

Attack On Southern Monuments Is Against All White People

Removing the Confederate Flag from the Georgia state flag is part of a national drive to abolish White history in general. The radical left and their allies expanded "Black History Week" to Black history month which takes up all of February. Martin Luther King's birthday now is an excuse to "study him" throughout the month of January. Malcolm-X, the anti-White revolutionary, who preached hatred of White people is now the subject of a new major motion picture. At the same time even Christopher Columbus is under fire because he is supposed to have exploited the Indians.

It should be noted that the Communist Party newspaper, "The Weekly World," supports all of these attempts to eradicate our White culture and heritage. They say that if it is something important to White people then it automatically smacks of "racism." The history of the South is the story of White people nation-wide. The Confederate flag features the Cross of St. Andrew which is the symbol of the British people. Therefore this is a national issue affecting White history which they actually want rewritten in all the text books to make our forefathers appear to be nothing more than brutal tyrants and enslavers of the downtrodden !

In Atlanta the streets named after such Civil War heroes as Gen. John B. Gordon and Nathan Bedford Forest have been renamed. Civil Rights leaders have said that the historic monument at Stone Mountain featuring the sculpture of Robert E. Lee, Stonewall Jackson and Jefferson Davis should be sand-blasted away. Atlanta's Negro Mayor Maynard Jackson said that he considered allowing the Confederate Cyclorama to decay "into dust" but decided against it as it brought in so much tourist money for the city. This is all part of a national campaign to erase White history and replace it with the history of the blacks and other minorities.

Georgia Gov. Zell Miller is the first turn-coat to go totally over to the NAACP side and seek to change our state flag. Mississippi Gov. Kirk Fordice stated that his state's flag (which also incorporates the Confederate Flag) will never be changed so long as he is Governor. Therefore the tide is turning as more and more White people stand up to

Randy Streets, a White student leader at LSU in Baton Rouge, La. has held public meetings demanding

most ornate monuments to Gen. Robert E. Lee anywhere in America. It sits in the center of "Robert E. Lee Park" in downtown Dallas. Recently the Southern Memorial Association spent over \$50,000 just to refurbish the beautiful monument.

"The statue glorifies a man we should be ashamed of. If the park board doesn't remove the statue the city may do it. The Soviet Union had symbols of oppression and tyranny. Here in Dallas we also need to look at those past symbols of division and racism and I think that Robert E. Lee Park is one of them !"

Needless to say Mr. Garcia was flooded with protest calls. The Dallas Park Board voted on the removal of the Lee statue on Aug. 11th and it was overwhelmingly defeated. White City Council member Glenn Box denounced those attacking Robert E. Lee as being "anti-Texan and anti-South."

Would Dig Up Nathan Bedford Forrest

The NAACP and SCLC have asked the city of Memphis, Tenn. to dig up the grave of Confederate Gen. Nathan Bedford Forrest and his wife. They want to dispose of their remains in such a way (one suggested dumping them in the Mississippi River) so that they can never be found and honored again. A huge statue of Gen. Forrest sits in the middle of Memphis and they are buried underneath.

Rev. Thomas Robb of Harrison, Ark. traveled to Memphis and warned of huge protest demonstrations to block such a move. As of today the city has not approved the NAACP plan.

Columbus is under the belief he is supposed to have exploited the Indians.

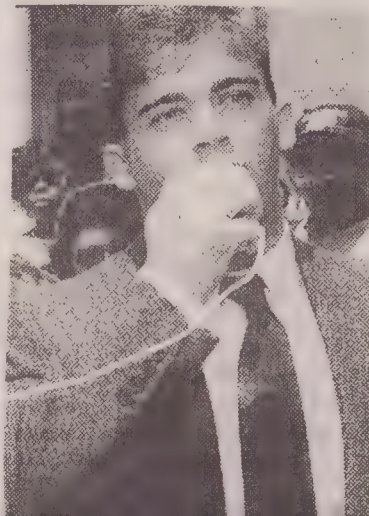

It should be noted that the Communist Party newspaper, "The Weekly World," supports all of these attempts to eradicate our White culture and heritage. They say that if it is something important to White people then it automatically smacks of "racism." The history of the South is the story of White people nation-wide. The Confederate flag features the Cross of St. Andrew which is the symbol of the British people. Therefore this is a national issue affecting White history which they actually want rewritten in all the text books to make our forefathers appear to be nothing more than brutal tyrants and enslavers of the downtrodden!

In Atlanta the streets named after such Civil War heroes as Gen. John B. Gordon and Nathan Bedford Forrest have been renamed. Civil Rights leaders have said that the historic monument at Stone Mountain featuring the sculpture of Robert E. Lee, Stonewall Jackson and Jefferson Davis should be sand-blasted away. Atlanta's Negro Mayor Maynard Jackson said that he considered allowing the Confederate Cyclorama to decay "into dust" but decided against it as it brought in so much tourist money for the city. This is all part of a national campaign to erase White history and replace it with the history of the blacks and other minorities.

Georgia Gov. Zell Miller is the first turn-coat to go totally over to the NAACP side and seek to change our state flag. Mississippi Gov. Kirk Fordice stated that his state's flag (which also incorporates the Confederate Flag) will never be changed so long as he is Governor. Therefore the tide is turning as more and more White people stand up to defend their White culture and White heritage of which we shall be forever proud.

Thus White people must remain vigilant and take forceful action when the symbols of our race, culture and heritage are threatened. The above White defenders are standing their ground and winning - you can too!

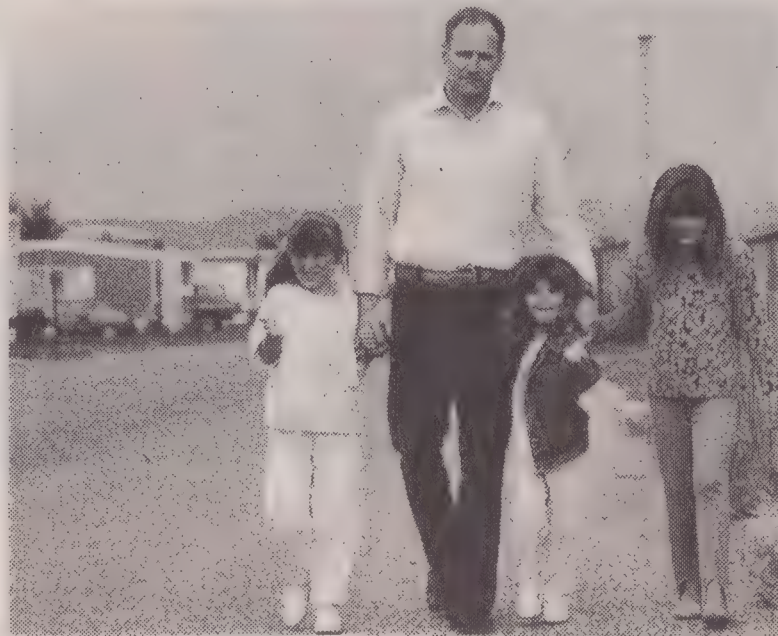

37 Million Americans Are "Working Poor" Congress Says: "We Need More Immigrants"

The Growing Working Poor In America

More Americans than ever before live in mobile homes. Each year fewer families earn enough money to afford a standard home. Last year 170,000 new mobile homes were sold. This is down from 295,000 in 1983. Most people rent their mobile homes and they are not "cheap."

Daniel Darlow, 38 and his wife live in a mobile home park in Cheyenne, Wyo. with their three daughters Michelle, Kristina and Anna. He served as a Coast Guard gunner for ten years. Now Daniel wishes he had remained in the guard until retirement. Today he is a substitute teacher earning \$25 for a half-day and \$50 for a full-day.

They pay \$425 a month rent. Banks discriminate against those who want to buy a mobile home. Interest is between 12% to 14% - what you would pay on a car loan. Insurance is 10% to 20% higher. The homes are vulnerable to fire, high winds, hailstorms and especially tornadoes. The death rate in a regular home is 7 people per thousand compared to 17 per thousand in mobile homes. The United States, Canada and Mexico are scheduled this morning to announce a historic trade agreement aimed at creating the largest single market in the world, administration officials said Tuesday night.

Critics fear the agreement could hasten the export of U.S. factory jobs to Mexico and could weaken U.S. environmental laws.

Eight Important Reasons To Stop All Immigration

The Immigration Moratorium Program

Reasons Why Immigration Must Be Halted

With Fairness To One And All we propose a total halt to ALL immigration - both legal and illegal. There are many fine Europeans who would make valuable contributions to America if allowed to come here. We realize that current law limits White people to less than 10% of all immigrants. However we are not even requesting that this figure be increased. Our policy is one of FAIRNESS to all nationality, racial and religious groups. So that no one group can claim any discrimination whatsoever we call for a 100% halt to all immigration !

The following problems explain why such action is imperative:

1) America is overcrowded - there are simply too many people here. This causes horrific traffic congestion, pollution and elbow-to-elbow people. This has fostered a new attitude of unfriendliness and even hostility. Simply put - the boat is full.

2) U.S. Industry is in a period of rapid decline. There are very few good paying jobs for the working middle class anymore. Immigration simply compounds the problem by bringing in more people to compete for a very limited number of jobs which leads to lower pay for everyone.

3) The National Debt becomes worse with each passing year. Immigration increases that debt because the government must borrow more and more money to pay for welfare, housing, SSI and medical care for many of the immigrants.

4) Crime has skyrocketed with increased immigration. We now are plagued with hundreds-of-thousands of Asian and Mexican youths in criminal gangs. The government has not even made a dent in controlling the problem.

5) Our Standard of Living is in a state of rapid decline and the quality of life is lower than ever

Spending multi-millions on immigrants takes money away from rebuilding our cities. Their overcrowding of housing has greatly increased slums in America.

Our Founding Fathers decreed that America be a White European nation for all time to come.

Half-measurers never work because the politicians will find a way to build in loopholes.
